

The parties in the above matter through their respective counsel hereby provide the following status update.

First, the parties apologize to the Court for the tardy report. There is no excuse.

As to the case itself, on July 7, 2020 Defendant University of Alaska issued its investigative report finding Daniel MacDonald responsible for one of the allegations and not responsible for the other. The parties met and conferred, and it agreed that Plaintiff would file an appeal through UA's Title IX process. On September 3, 2020, Plaintiff filed his appeal with Defendant.

It is expected that UA will need until November 1, 2020 to complete the appeal process. The parties expect that the clock specified in the Joint Rule 26 report of June 16, 2020 (ECF # 22) can begin ticking on November 1, 2020 and the parties will update the Court with a revised Rule 26 report at that time.

Dated: September 8, 2020
